

ONE OF THE  
MOST  
WONDERFUL  
PLACES IN  
THE WORLD

Arashiyama Bamboo  
Grove

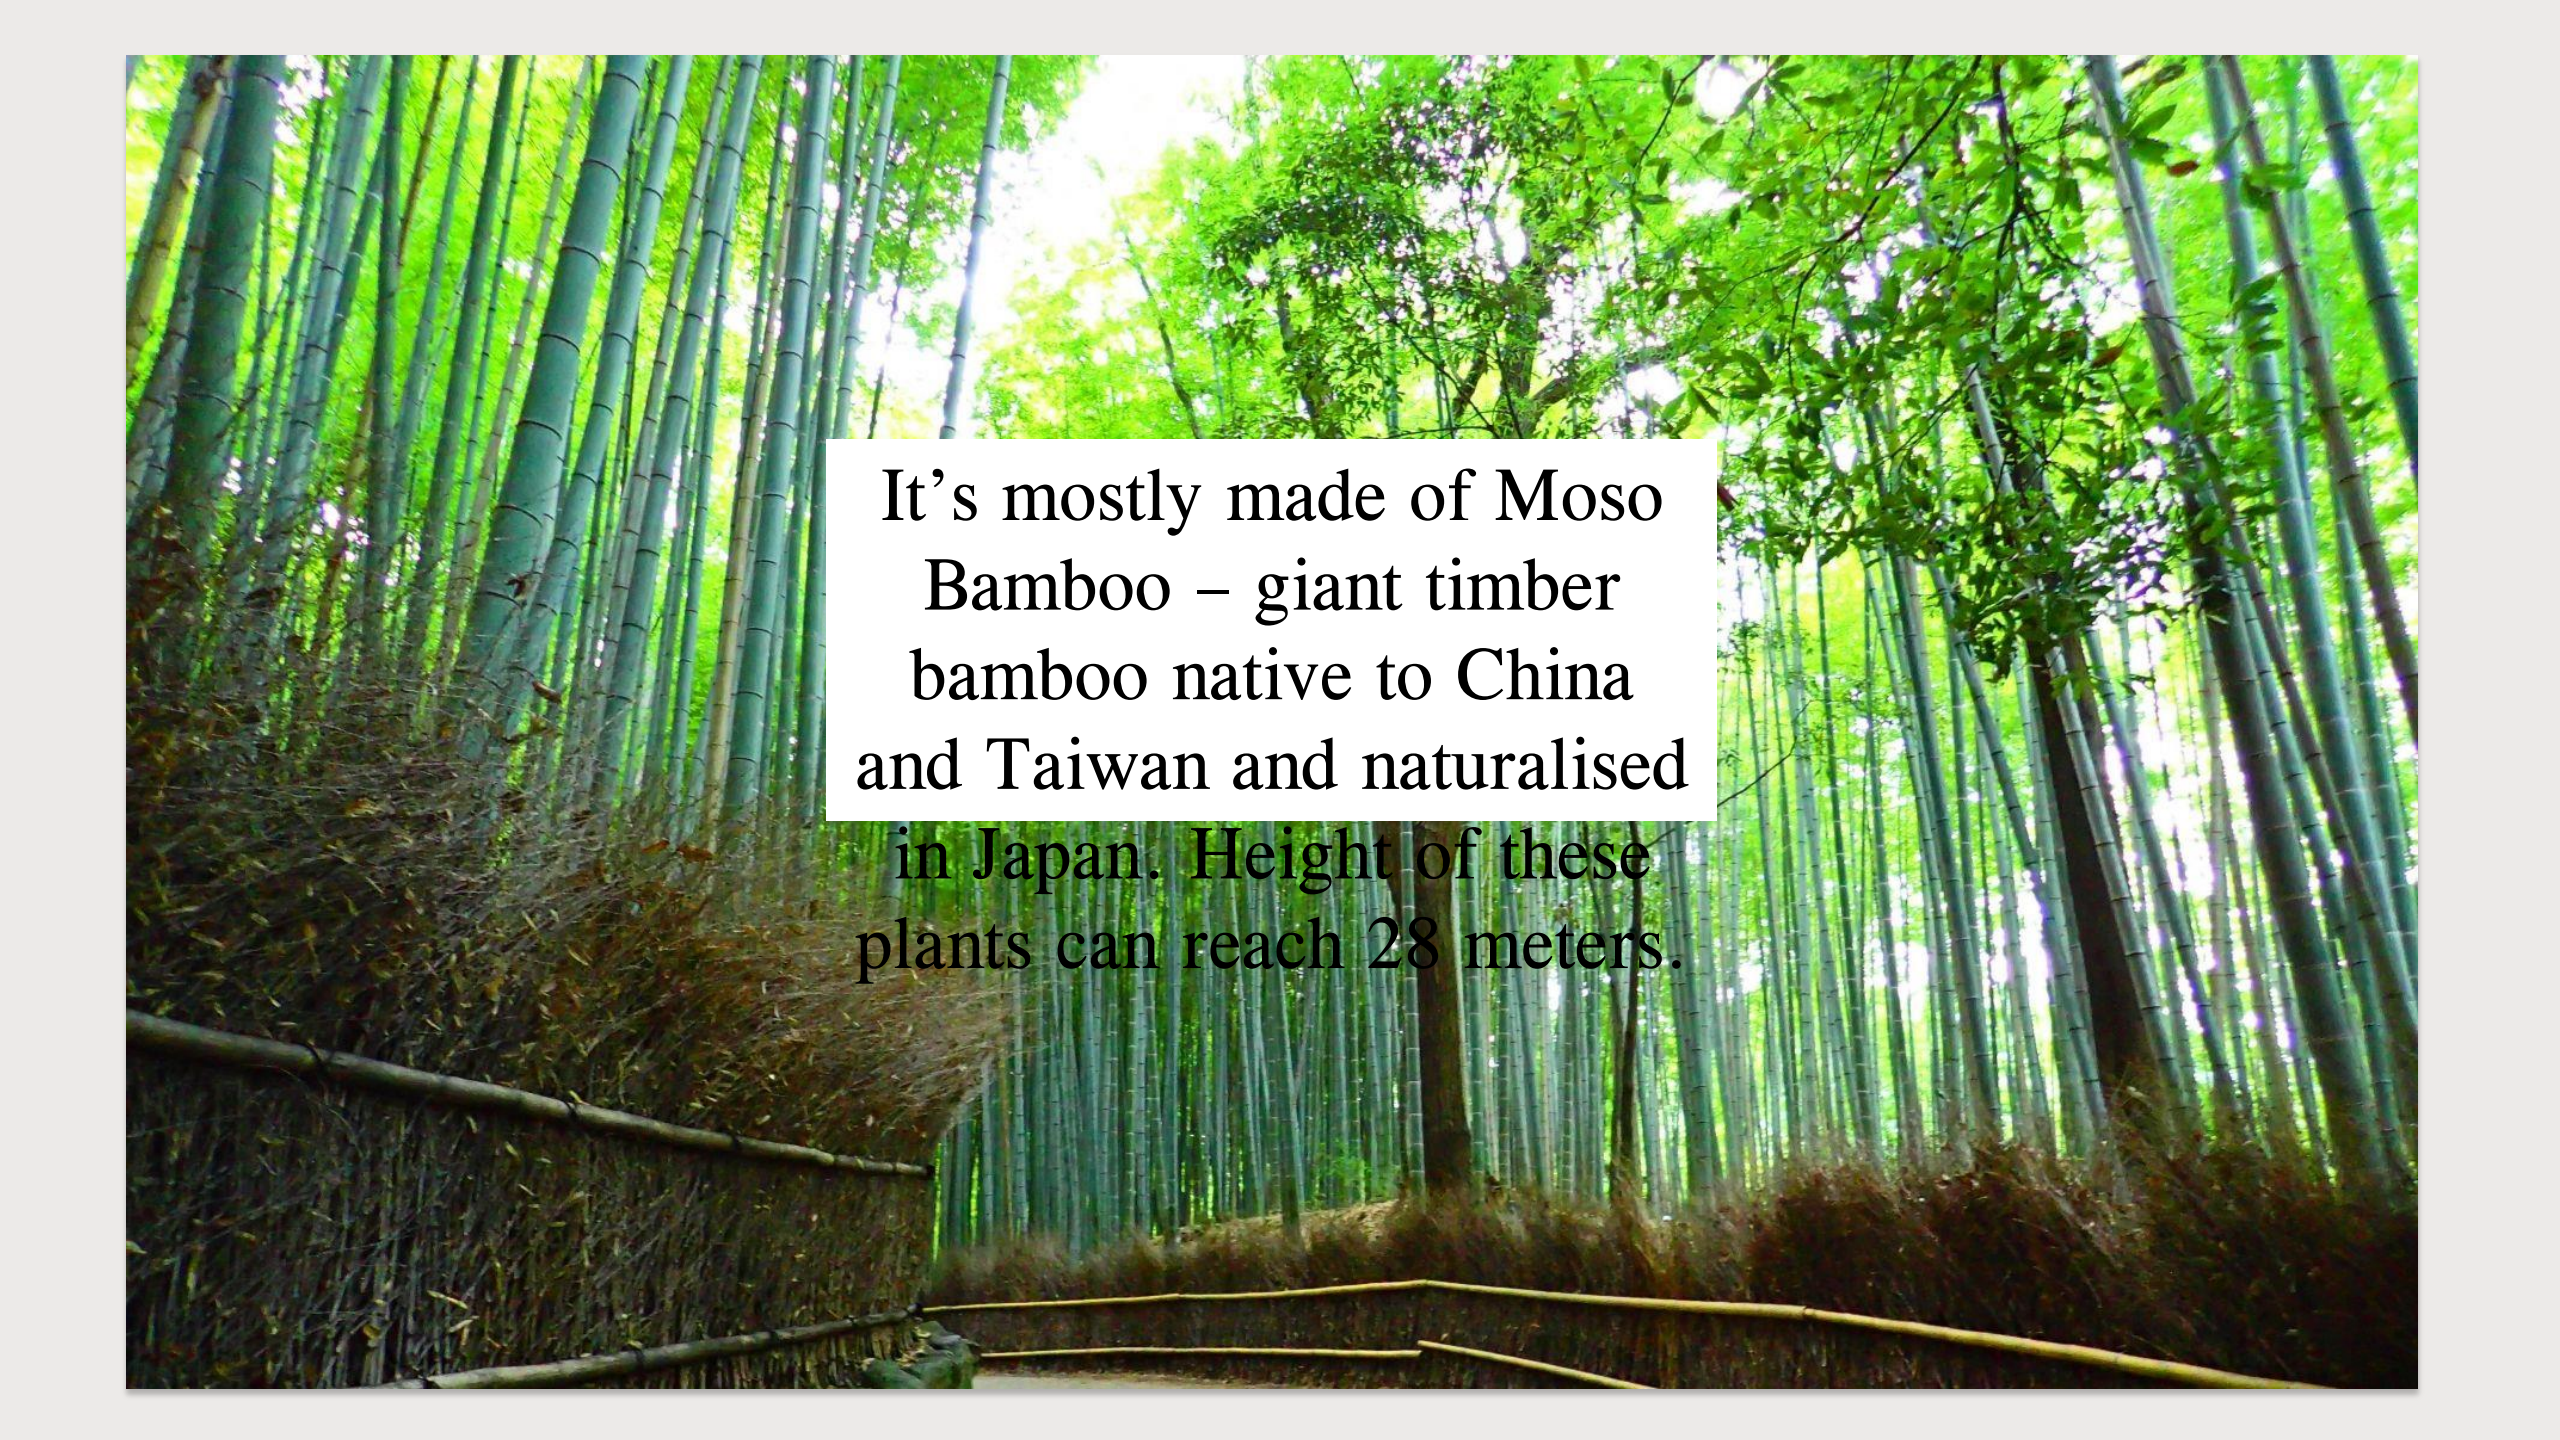

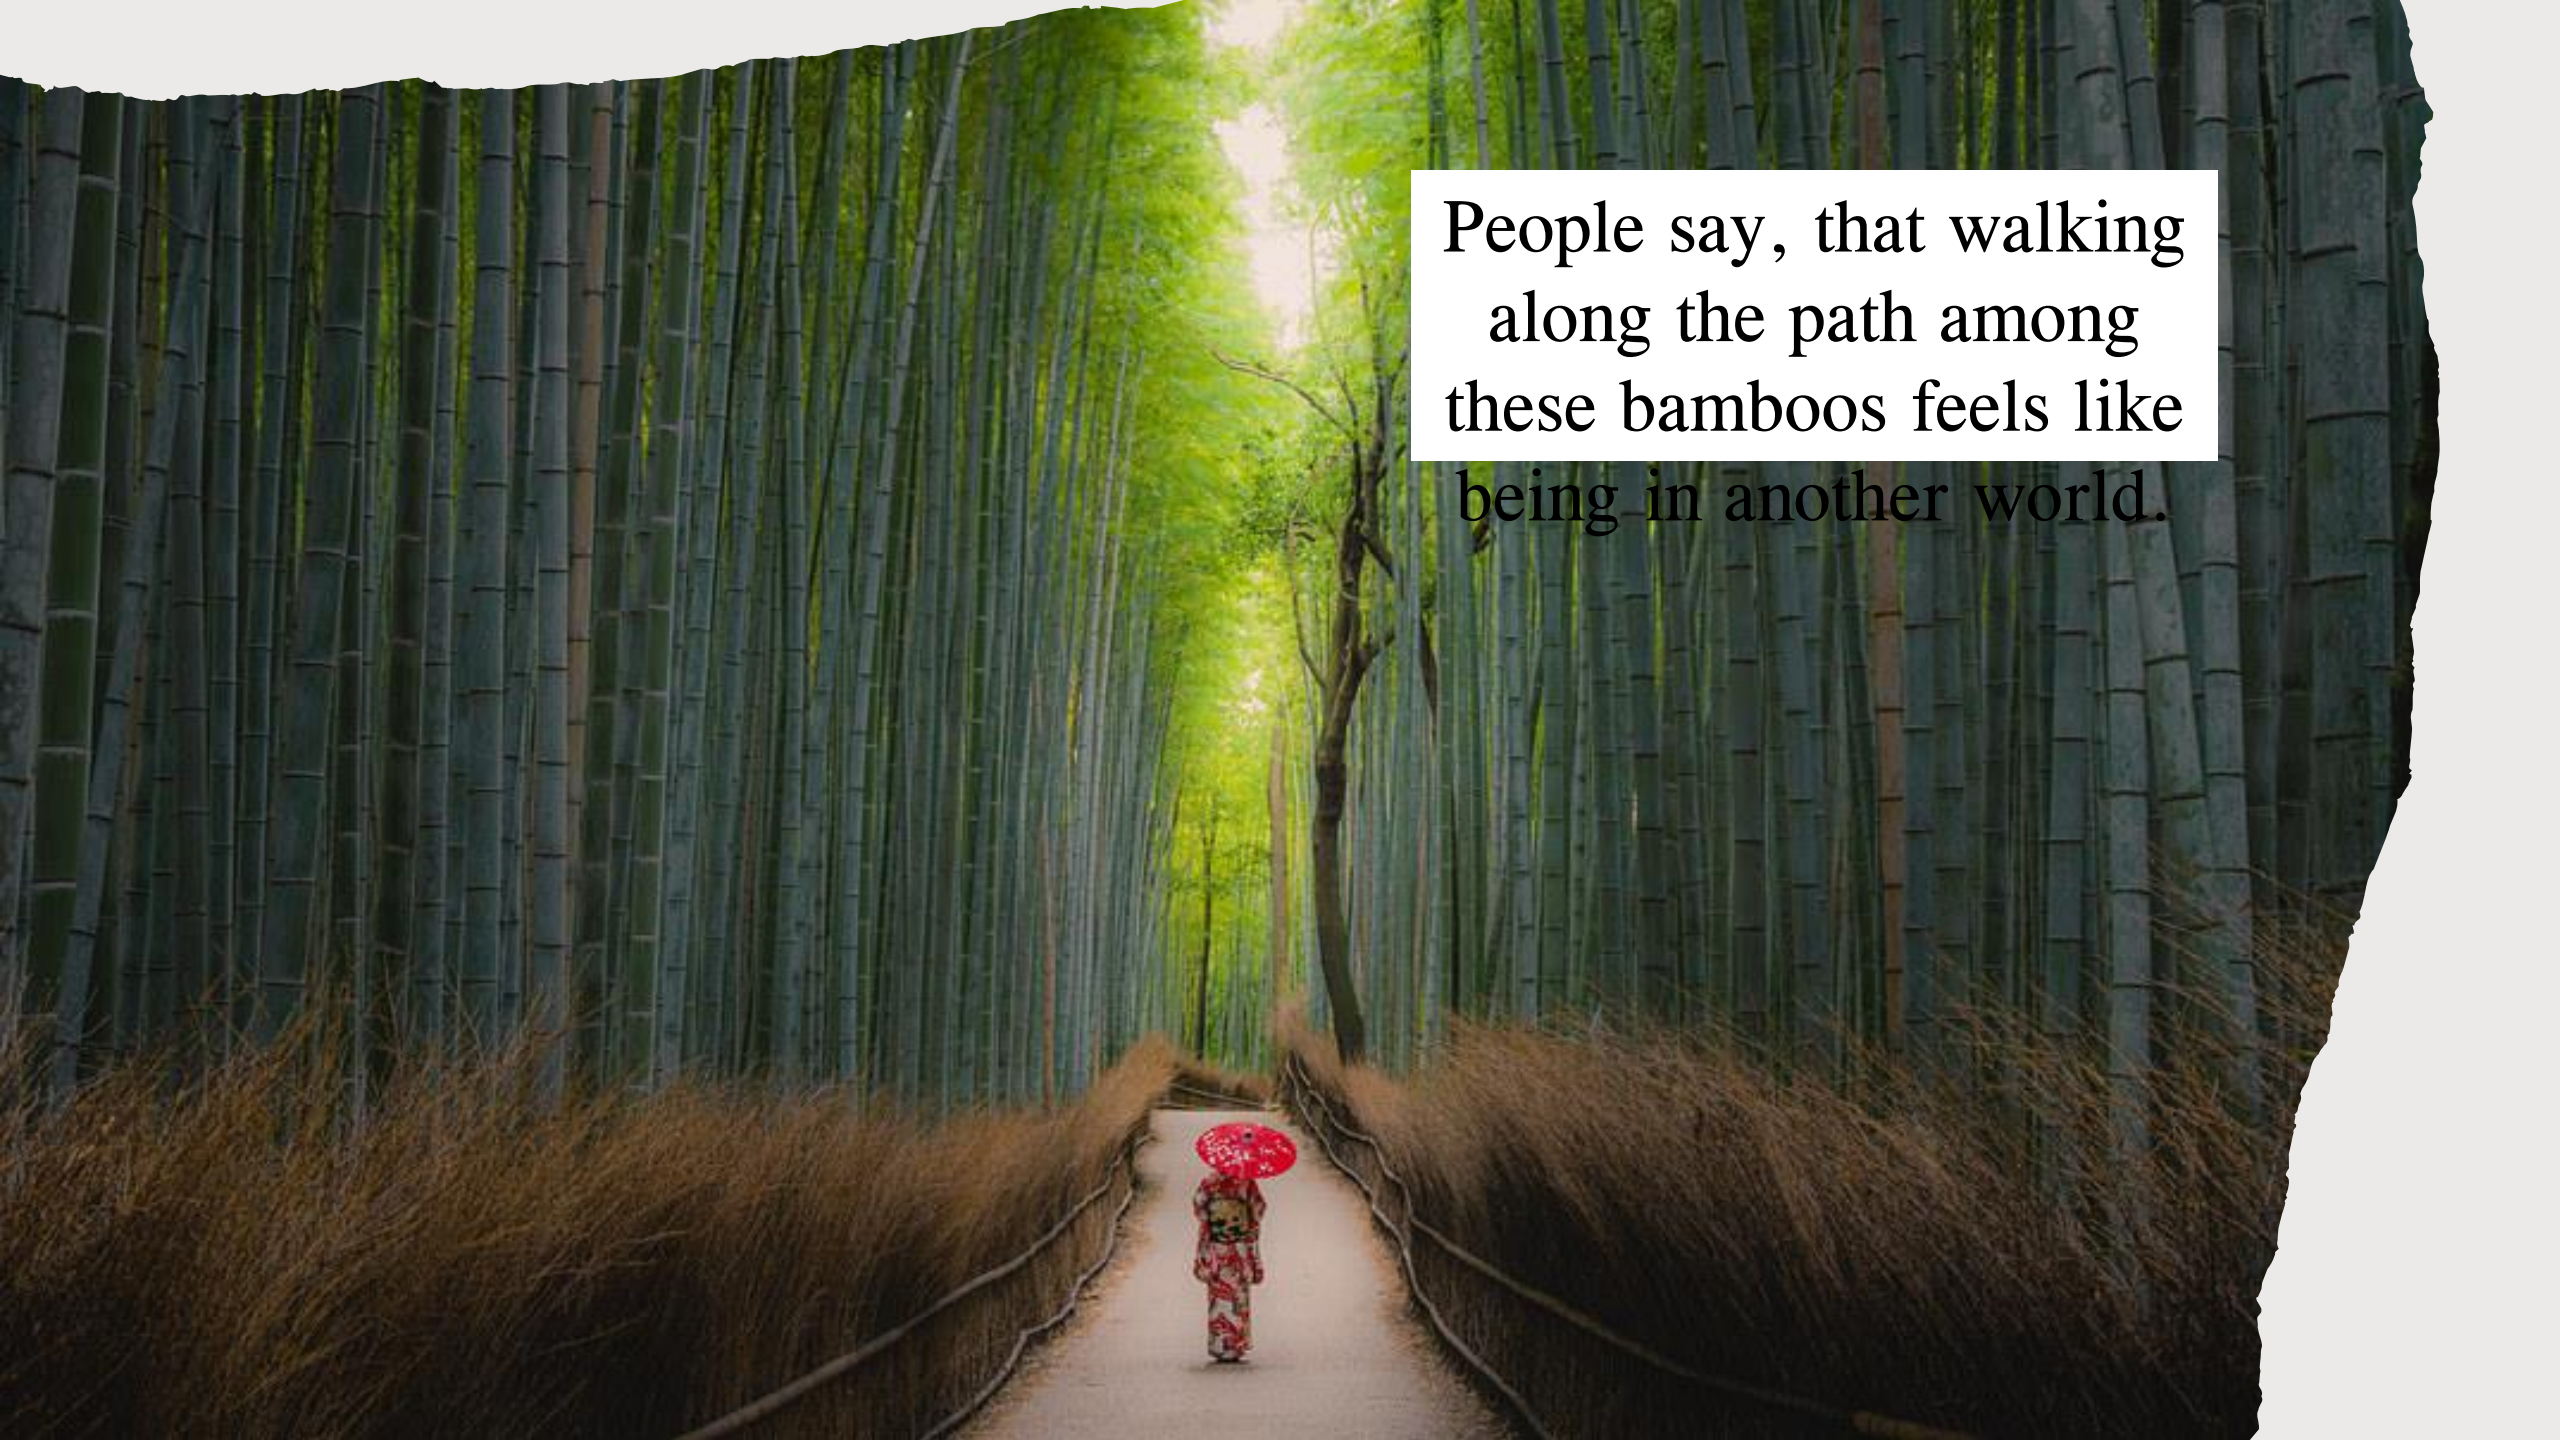

It's also named Sagano  
Bamboo Forest.  
This place is a natural  
forest of bamboo in  
Arashiyama, district on  
the western outskirts of  
Kyoto.

It's mostly made of Moso  
Bamboo – giant timber  
bamboo native to China  
and Taiwan and naturalised  
in Japan. Height of these  
plants can reach 28 meters.

People say, that walking  
along the path among  
these bamboos feels like  
being in another world.

View on the sky in  
Bamboo Forest:

Bamboo Grove in the dark:

A photograph of a dense bamboo forest. The bamboo stalks are tall, thin, and green, creating a thick canopy. A path winds through the center of the forest, and several people are walking along it. The lighting is bright, suggesting a sunny day. The image has a torn-paper edge effect at the top and bottom.

WOULD YOU LIKE TO GO  
THERE?

THE END
